ECO CLUB COMMITTEE REPORT
2014 to 2019

Save the Environment and you will save the life and future

Introduction

Clubs play an important role in creating environmental awareness amongst the future generation. It offers programs and activities to encourage others to reduce pollution, plant trees, and more. Eco club is a voluntary group which promotes the participation of students in learning about, and improving their environment.

For teachers, it is a wonderful opportunity to create awareness, build attitudes and help students take up activities in real world, in a way in which the constraints of the classroom and curriculum will not allow. An eco club can thus help to extend boundaries and scope of the formal educational system encouraging creativity, and improving students for constructive action. Eco club activities can help the teacher to meet the objectives of environmental education, which are to create awareness and sensitivity among individuals and social groups to the total environment and its allied problems. Impart knowledge to help individuals and social groups gain a variety of experiences in and acquire a basic understanding of, the environment and its associated problems.

Build attitudes to help individuals and social groups acquire a set of values and feelings of concern for environment, and the motivation for actively participating in environmental improvement and protection. Teach skills to help individuals and social groups for identify and solve environmental problems.

Aims and Objectives of Club:

- To make the students understand the environment and environmental issues.
- To create awareness on Eco and clean among the students through various novel methods.
- To maintain cleanliness in and around the college campus.
- To create a friendly environment.
- To conserve the natural resources and the natural environment.
- Organize tree plantation programmes, awareness programmes such as quiz, essay, painting competitions.
- Sensitize the students to minimize the use of plastic bags.
- Motivate students to imbibe habits and life style for minimum waste generation, source separation of waste and disposing the waste to the nearest storage point.
- To promote culture of conservation of water by minimizing the use of water.

Activity Report: 2018-19

Say No use to Plastics Campaign

Club organised an awareness campaign for a Eco and clean college on September 25, 2017. The videos screened at the event aimed at sensitising the audience about the disastrous toxic waste levels in city. It was followed by pledge-taking by the participants in which the students and faculty members vowed to take remedial measures. Thereafter, a slogan- writing competition was held and the contestants came up with several motivating slogans

Biodiversity Evaluation within the Campus

Biodiversity refers to the variety of plant and animal life in the world or in a particular habitat and a high level of variety is usually considered to be important and desirable. Biodiversity evaluation is a systematic identification (species, family, nomic importance) of plant species within the campus. Club has completed the work of identifying all the plants and trees in the campus with funding support received from forest department.

Setting up of "Garden"

Creating a logical garden is a major step in helping the environment and in reducing the carbon footprint. Choosing organic methods for amending the soil, irrigation, and controlling pests and weeds is an integral part of maintaining-gardens. It's also important to plant native plant species for creating an earth-friendly garden.

Activity Report: 2019-20

1. Organize seminars and special lectures on environmental issues in the College.
2. Campaign against banned plastics, banned fireworks, recycling of glass and metals, filling of water body in the adjacent area, etc.
3. Organize rallies, marches, human chains at public places with a view to spread environmental awareness.
4. Action based activities like tree plantation, cleanliness drives both within and outside the College campus.
5. The club of college organized and actively participated in the Swachh Bharath Programmes in various places of the Koppal city.
